

# Green Tree Road Bridge

## Newsletter

February 2018

### Project Overview

Beginning in April, the Wisconsin Department of Transportation (WisDOT) will begin reconstructing the Green Tree Road Bridge over I-43. The new bridge will have a higher profile and longer spans to help improve safety and capacity in the area. As part of this project, the Good Hope Road entrance ramp to I-43 southbound will be reconstructed, and adjustments to Green Tree Road and Jean Nicolet Road will be made to match the new bridge profile.

### Traffic Impacts

To successfully deliver this project, a full closure of the bridge will be necessary. To help alleviate impacts to Nicolet High School traffic, the closure will begin during the summer months. In addition to the bridge closure, the on-ramp from Good Hope Road to southbound I-43 will also be closed for reconstruction.

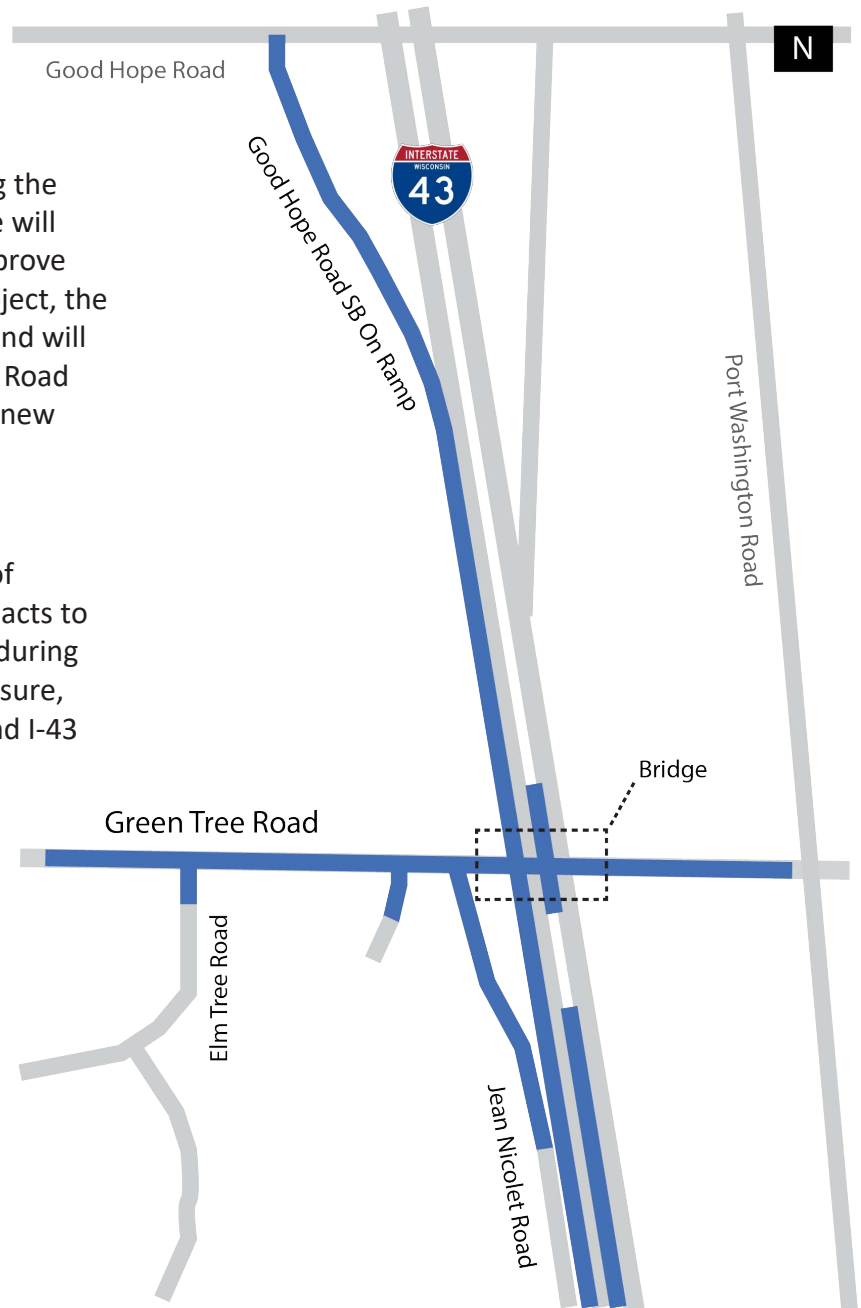

### Schedule

April 2018 - Late Fall 2018
