

PROJECT UPDATE

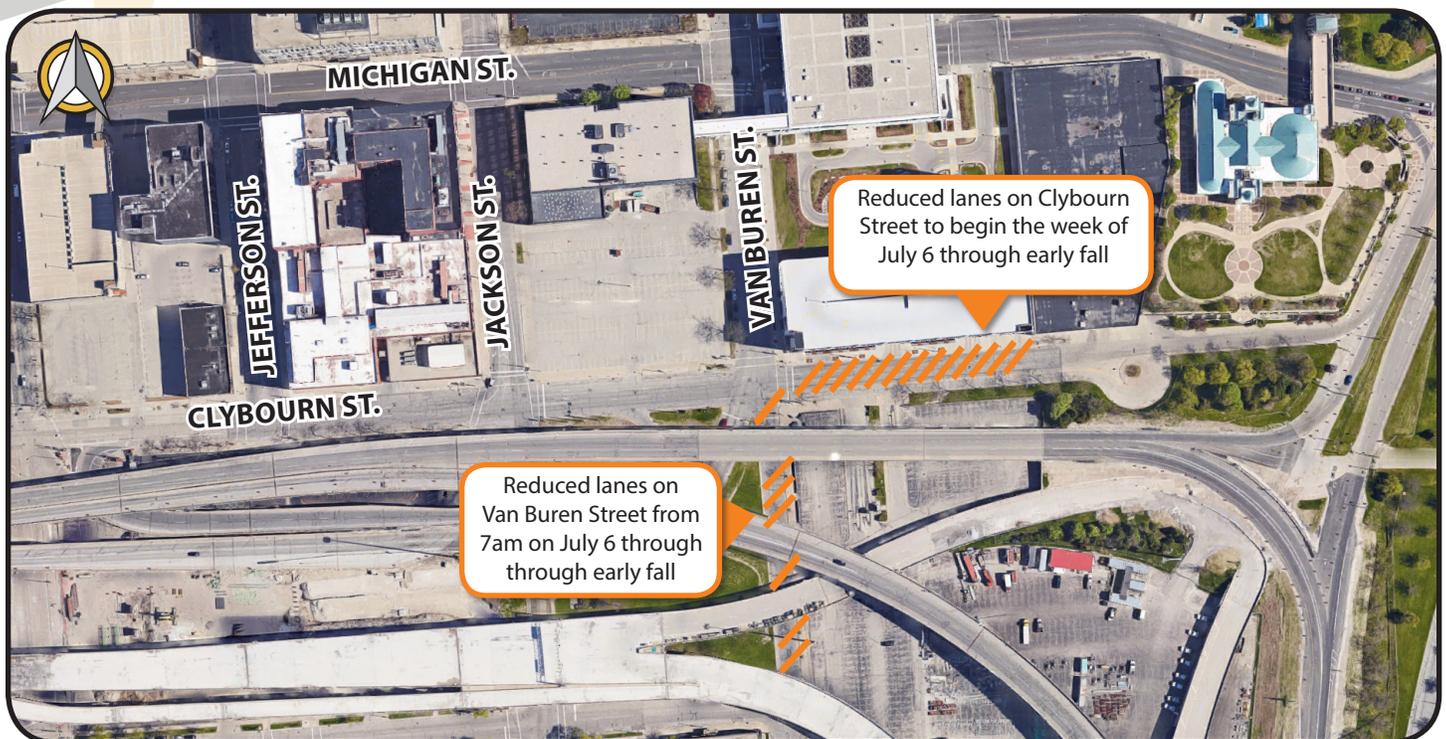

I-794 Lake Freeway/Hoan Bridge Project Information

JULY 2015

INTERSECTION IMPROVEMENTS TO BEGIN AT VAN BUREN STREET & CLYBOURN STREET

In conjunction with the I-794 Lake Freeway/Hoan Bridge project and the upcoming Lakefront Gateway project, the intersection of Van Buren Street and Clybourn Street will be under construction beginning the week of July 6. Stage 1 of the work will include curb/gutter removals, pavement widening, and water main work. From 7am on July 6 through 5:30pm on July 8, there will be reduced lanes on Van Buren Street to allow crews to safely access the work zone. Motorists currently using the CPS lot on Van Buren Street will still have access to the lot, however, the entrance and exit will be in a temporary configuration during the course of the work. Later in the week, a lane reduction on Clybourn Street will also occur to extend access to the work zone.

Work at this intersection is being strategically sequenced to ensure work is done safely and efficiently. Details on future stage changes will be communicated as the work approaches. This intersection is scheduled to reopen to full capacity in early fall. The project team appreciates your patience during this period of construction in your neighborhood.

All work is weather dependent and subject to change.
