

# PROJECT UPDATE

I-794 Lake Freeway/Hoan Bridge Project Information

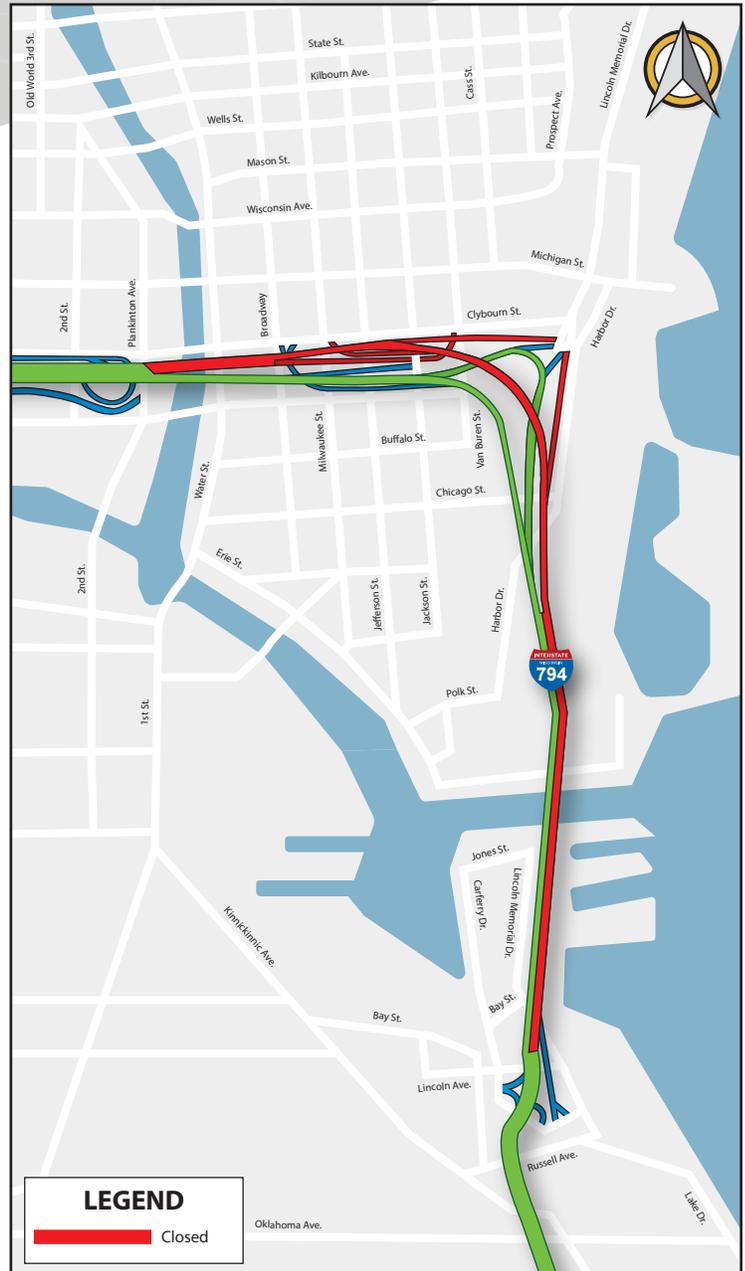

## I-794 WEST DEMOLITION TO BEGIN

With the second phase of the I-794 Lake Freeway/Hoan Bridge project now underway, the Wisconsin Department of Transportation (WisDOT) is set to begin demolition operations on the westbound I-794 lanes. The demolition area will cover from the Lake Interchange to the Milwaukee River. The work involves removing the existing westbound bridges, replacing them with new structures, concrete repaving and surface work. Demolition is scheduled to take place for the next several weeks. Motorists should expect periodic closures of the local streets underneath the bridge to perform this work.

### WHAT TO EXPECT DURING CONSTRUCTION

These construction activities will create noise and/or dust, and some work will be conducted at night during the course of the project. Be assured that we always work hard to minimize the impact of these events, but, if you have a concern, please do not hesitate to contact us so that we can address the issue immediately. The project team appreciates your patience during this period of construction in your neighborhood.

**\*All closures are weather dependent and subject to change\***
