

# PROJECT UPDATE

I-794 Lake Freeway/Hoan Bridge Project Information

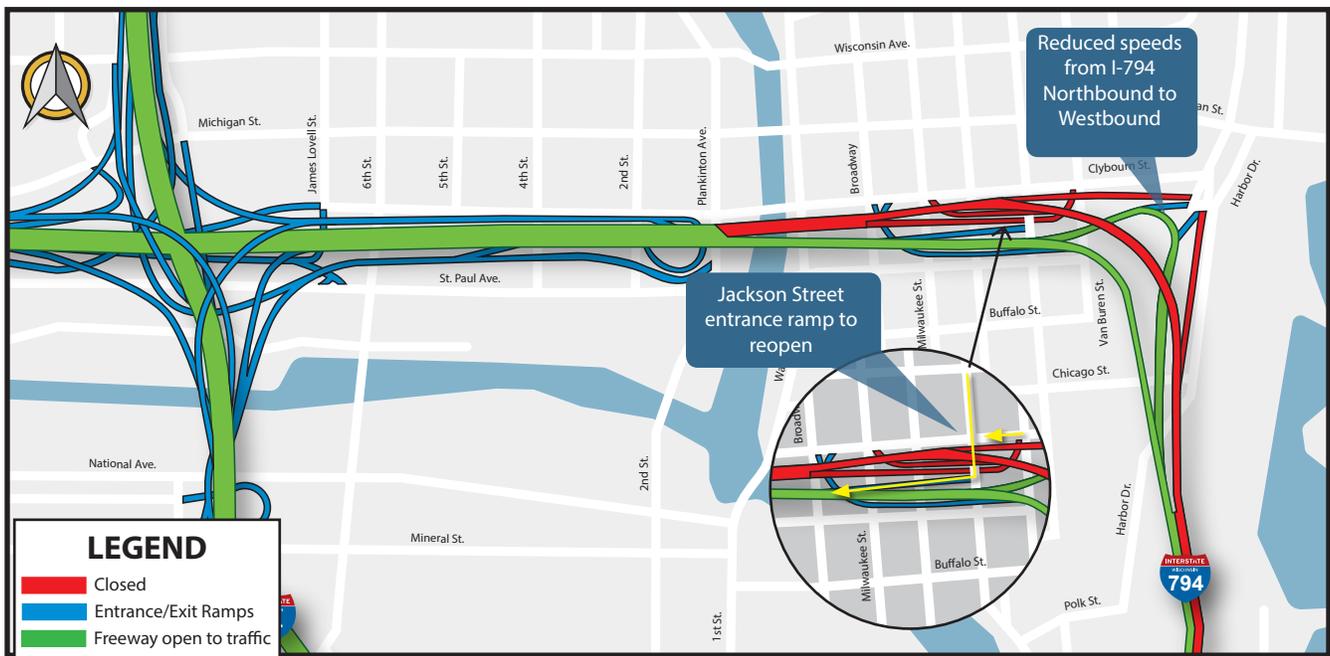

## JACKSON STREET ENTRANCE RAMP TO REOPEN

Beginning on December 20, Jackson Street will reopen as a temporary entrance to I-794 West. The access point for the entrance ramp will be located directly on Jackson Street, not Clybourn Street as it was previously configured. Motorists are encouraged to consider using alternate entrance ramps to I-794 West since the Jackson Street entrance is located in the work zone. The temporary ramp will only have one lane and will require motorists to merge with westbound traffic. The map below shows the configuration that will be in place from late December 2014 through late Summer 2015.

Additionally, please note that new traffic patterns will emerge as traffic is switched onto the newly reconstructed I-794 eastbound lanes. Motorists are advised to slow down as they will see speeds reduced to 20 miles per hour along the temporary I-794 northbound to I-794 westbound curve.

### WHAT TO EXPECT DURING CONSTRUCTION

Be assured that we always work hard to minimize the impact of these events, but, if you have a concern, please do not hesitate to contact us. The project team appreciates your patience during this period of construction in your neighborhood. **All work is weather dependent and subject to change.**
