

# PROJECT UPDATE

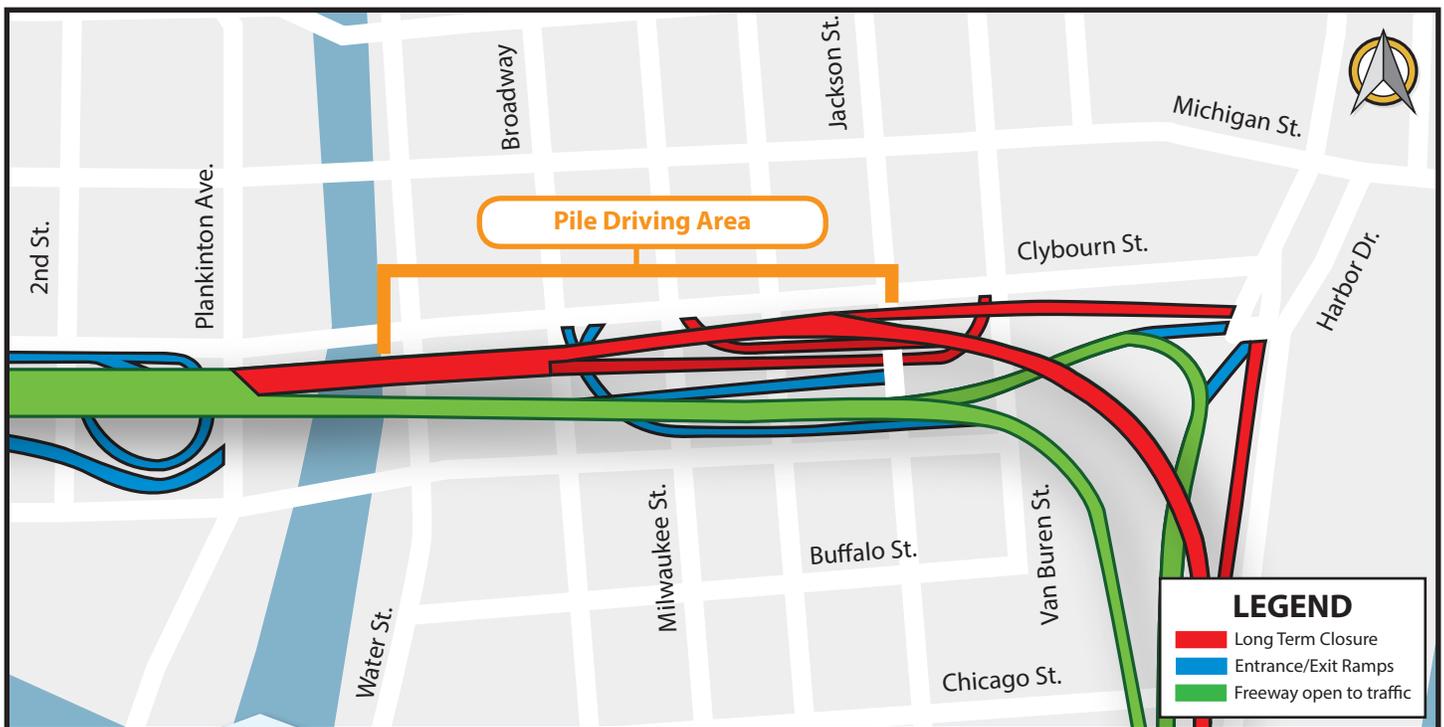

I-794 Lake Freeway/Hoan Bridge Project Information

## PILE DRIVING TO BEGIN THE WEEK OF JANUARY 19

As part of the I-794 Lake Freeway/Hoan Bridge project, the Wisconsin Department of Transportation (WisDOT) continues work on I-794 West. Beginning the week of January 19, foundation pile driving will commence near the Milwaukee River and will continue along I-794 through the Lake Interchange. Pile driving operations will typically occur between 7am and 6pm daily, but may occasionally last until 9pm. The work will create noise and vibration. Pile driving is a large component in the foundation construction of the new bridge structures and will continue for the next several months.

### WHAT TO EXPECT DURING CONSTRUCTION

These construction activities will create noise, dust and ground vibration. Be assured that we will continue to work hard to minimize the impact of these events, but, if you have a concern, please do not hesitate to contact us. The project team appreciates your patience during this period of construction in your neighborhood. **\*All closures are weather dependent and subject to change.\***
