

2015 Construction: Project Overview

2015 Construction and Traffic Impacts

2015 construction will include the westbound lanes of I-90 from the State Line to Theater Road, the westbound I-90 bridges over US 53/Rose Street and the French Slough, the County BW bridge over I-90, and overhead sign structures. See the map to the left for the location of construction operations. Anticipated impacts to traffic during construction include:

- All roadways remain open except as noted below
- I-90 reduced to one-lane in each direction from State Line to US 53/Rose Street and a portion of I-90 under WIS 157
- I-90 may be reduced to one-lane in each direction between US 53/Rose Street and WIS 157 during periods of low traffic volumes
- I-90 westbound reduced to one lane from WIS 157 to WIS 16 for up to 21 days
- WIS 157 northbound to I-90 westbound and WIS 157 southbound to I-90 eastbound loop ramps will be closed and detoured for the majority of the construction season
- 21-day closure of northbound Rose Street to westbound I-90 on ramp, detour provided
- County BW closed from the start of construction until October 1, 2015 (no detour provided)
- Rest Area will be closed March 30, 2015 through the Fall of 2016
- Potential lane closures on Rose Street during periods of low traffic volumes for work on the I-90 bridge
- Brief stops (up to 15 minutes) on I-90 and US 53/Rose Street for bridge and/or sign structure placement or removal to occur Monday through Thursday 12:00 a.m. - 4:00 a.m
