

Winter 2018/2019

GET AROUND GUIDE

> INTRODUCTION

The Wisconsin Department of Transportation (WisDOT) is well underway with work on the **I-94 North-South corridor in southeast Wisconsin**. This is the fastest-paced Mega Project in WisDOT history. The team is in place reconstructing 18.5 miles of freeway. All lanes of traffic will reopen by Memorial Day 2020.

The project limits for this work run from College Avenue to WIS 142, broken into three segments (North, Central and South). The project is reconstructing, expanding and modernizing the freeway. We're adding a fourth lane in each direction, rebuilding five interchanges and building a new interchange at Elm Road.

> IMPORTANCE

I-94 North-South is a vital economic corridor linking the Milwaukee and Chicago metro areas. Commuters, tourists and businesses use the freeway every day to reach destinations in southeastern Wisconsin and beyond.

The federal and state governments are committed to addressing transportation infrastructure needs in this corridor.
