## Project Scope Summary

- Expand freeway to eight lanes with safety and operational improvements
- Rebuild all old bridges over local roads
- 7.5 miles total of reconstruction
- Rebuild 7 Mile Road interchange
- Construct new interchange at Elm Road
- Permanent closure of the 27th Street ramps
- \$175M-\$200M construction estimate

## Construction Impacts

- Long-term ramp closures
- Signed alternate routes will be available to minimize impacts
- Narrower lanes and shifting traffic
- Materials and equipment hauling
- Occasional overnight closures
