Greetings from the Wisconsin Department of Transportation!

Listed below are a few construction updates for the WIS 20 reconstruction project:

Mid-April through late April, 2015:

- Continuation of mainline grading and storm sewer work
- Pavement removal on I-94 EAST (SB) mainline
- Excavation of existing pier
- Daytime pile driving operations on south abutments
- Construction of retaining wall at north abutment at WIS 20

Additionally, due to increased traffic at the County K interchange, the project team installed a second set of temporary traffic signals at the I-94 WEST (NB) exit ramp and County K interchange for safety reasons.
