

The corridor population is estimated by utilizing the Census 2000 population counts. This count is then converted into a population density based on the SEWRPC Regional Land Use Inventory 2000 for each Census Block. The estimated population is then computed based on the amount of residential land within the I-94 corridor.

Population by race was taken from data indicating race alone or in combination with other races (Table P9 from SF1). As a result of these categories not being mutually exclusive, the population obtained by summing all of the racial categories may exceed the total population for any given area. It should also be noted that 'Hispanic' is an ethnic group and not a race category, and is expressed separately from race in the data. Thus, Hispanic persons are also White, Black, etc., in addition to being Hispanic. Total minority population was calculated as the sum of all non-white race groups, plus Hispanics indicating their race as 'White.'

### Three-County Region

Entire three-county region is not shown.

Milwaukee	362,669 (38.6%)
Racine	39,159 (20.7%)
Kenosha	22,769 (15.2%)
<b>Total</b>	<b>424,597 (33.2%)</b>

### One-Mile Corridor

Milwaukee	7,817 (14.2%)
Racine	73 (3.7%)
Kenosha	249 (7.7%)
<b>Total</b>	<b>8,139 (13.5%)</b>

### Quarter-Mile Corridor

Milwaukee	2,472 (16.1%)
Racine	16 (3.8%)
Kenosha	18 (3.7%)
<b>Total</b>	<b>2,505 (15.4%)</b>

### Minority Population

1 Dot represents 5 Persons
