News & Updates...

Greetings from the Wisconsin Department of Transportation

Listed below are a few updates regarding the West Waukesha Bypass project work over the next few weeks.

Please note that all work is weather dependent and subject to change.

Through late July, the following work continues on the project:

- Utility work along the corridor.
- Storm sewer work along the corridor through late July.
- Clearing and grubbing (tree and shrub removal).
- Grading and excavating.
- Northview Road detour currently in effect (Northview Road closure just west of Meadowbrook Road).

Week of July 24:

- As part of the project, crews will be installing storm sewers across Meadowbrook Road (County TT) and will require multiple overnight closures. Details will be sent closer to the work being performed.

**As a reminder, the speed limit on Meadowbrook Road just north of Madison Street and just south of Silvernail Road (within the construction zone) has been reduced to 25 mph.*
