## **Work on West Waukesha Bypass set to resume March 20th Work will include beam guard, signing and pavement marking**

The Wisconsin Department of Transportation (WisDOT) is going to resume road construction activities along the west Waukesha Bypass. The contractor, Zignego, will begin placing message boards out today in anticipation of renewed construction work on March 20<sup>th</sup>. The work that will begin next week will be completed by August of 2018 and will finish the work on the northern segment of the project.

Work will begin on Summit Avenue and will shift all east/west traffic onto the westbound lanes.
