

# WIS 42 Reconstruction Project Village of Sister Bay

## Public Information Meeting May 29, 2013

Welcome to tonight's meeting! Thank you for taking time to attend and learn more about this project. This meeting will include a presentation at 5:45 p.m. with a question/answer session following the presentation.

### *Project Information*

The project includes:

- Removing and reconstructing the roadway from Country Walk Drive to Scandia Road.
- Lowering the roadway from Sister Bluff Drive to Bluffside Lane to improve sight distance.
- Minor realignment of WIS 57 intersection to improve sight distance and intersection angle.
- Realignment of the Gateway Drive intersection to improve sight distance and intersection angle.
- Addition of curb and gutter with storm sewer from Country Walk Drive to Bluffside Lane.
- Extension of sidewalks on WIS 42 from Country Walk Drive to Bluffside Lane.
- Extension of sidewalk on WIS 57 to Canterbury Lane.
- Increased width of roadway to accommodate a shared drive lane & bike lane.
- Replace storm sewer and improve drainage throughout the project.
- Add underdrain pipe from Bluffside Lane to Mill Road to address storm water runoff.

The project is currently scheduled for construction from July 2014 to June 2015.

### *Traffic Control*

WisDOT is committed to staging this project in a manner that minimizes impacts to local businesses while completing the project in a short timeframe. While the construction staging has not been completed at this time, the following traffic control is anticipated:

- At no time will both WIS 42 and WIS 57 be closed at the same time.
- WIS 42 traffic will remain open to one lane each direction in summer months (June-August).
- Both WIS 42 and WIS 57 will be open for Fall Fest weekend.
- WIS 42 will be open to northbound traffic only from Fall Fest weekend to Memorial Day weekend. Regional detour will be posted by WisDOT. Village will post local detour routes.
- WIS 42 traffic will be open to one lane in each direction prior to Memorial Day 2015.

## Right-of-way

Additional right-of-way and temporary limited easements are required for this project. There are several encroachments (such as signs and landscaping areas) within the right-of-way which will need to be moved prior to construction. Real estate acquisition is scheduled to begin June 2013.

## Park Impacts

At Gateway Park, right-of-way is required for adding pavement for WIS 57 and Gateway Drive, adding a right turn lane on WIS 42, adding sidewalk, adding storm sewer, removing trees, and removing the existing path. Temporary limited easements are required for grading open space, replacing driveways, and construction equipment access.

At Hendrickson Park, right-of-way is required for adding sidewalk in the northeast quadrant of WIS 42 and Mill Road intersection. Temporary limited easements are required for grading open space, replacing walking path, adding lighting within the green space adjacent to the sidewalk, and construction equipment access.

## Project Schedule

Public Information Meeting #2	May 29, 2013
Environmental Report	June 2013
Real Estate Acquisition	Begin June 2013
Utility Coordination	June 2013 – February 2014
Final Plans	February 1, 2014
Letting	May 2014
Public Information Meeting #3	June 2014
WisDOT Construction	July 2014 – June 2015

## Other Projects in the Area

- Village of Sister Bay (Water and Sanitary Sewer Replacement) – Fall 2013 to Spring 2014
- WIS 57 Resurfacing (Baileys Harbor – Sister Bay) – September 2015 to October 2015 (Tentative)
- WIS 42 Resurfacing ( Fish Creek to Sister Bay) – October 2015 to June 2016 (Tentative)

## Public Comments

Attached to this handout is a sheet for your written comments. Please mail any comments before June 19, 2013, or simply drop it in the comment box tonight. The comment sheet is a pre-paid mailer.
