

WIS 96 Brown County Projects

WRIGHTSTOWN

- **WIS 96 Resurfacing**
2012 Summer Construction
 WIS 96 will be milled and resurfaced from the east limits of the village of Wrightstown, Shanty Road, to 0.25 miles east of Old 57 Road. The approximate length of the project is 2.2 miles.

- **WIS 96 Wrightstown Reconstruction**
2014 Spring and Summer Construction
 WIS 96 (High Street) will be reconstructed from Fair Street to Shanty Road. The approximate length of the project is 0.8 miles.

- **WIS 96 Greenleaf Reconstruction**
2014 Spring and Summer Construction
 WIS 96 (Day Street) will be reconstructed from 1,240 feet east of Old 57 Road to Breckenridge Falls Road. The approximate length of the project is 0.9 miles.

- **WIS 96 Bridge and Roundabout Construction**
2014 Fall - 2016 Construction
 Construction of this project will begin as the urban portion within the village of Wrightstown is being completed. Bridge construction will occur in the years 2014 and 2015. The existing bridge will be removed in the year 2016. The approximate length of the WIS 96 construction project is 0.7 miles.

- **WIS 96 Detour Route**
 This detour route will be used for two weeks during the 2012 resurfacing project. The highlighted detour route will also be used during the 2014 Wrightstown and Greenleaf reconstruction project. The detour will not be required for the bridge construction project.
