

## NORTH AVENUE POND PROJECT

### UPCOMING CLOSURES

The Wisconsin Department of Transportation (WisDOT) is constructing a stormwater pond in the loop ramp in the northeast quadrant of the North Avenue Interchange. As part of this construction, the following closures will occur:

- **Weekend of July 10\*** - 36-hour closure from Friday evening until Sunday morning:
  - All North Avenue Interchange ramps except the southbound I-41 to westbound North Avenue exit ramp
  - All westbound lanes on North Avenue
  - All but one eastbound lane on North Avenue

*\* Assuming good weather the week prior, the 36-hour closure will take place starting July 10, 2020. If the weather is uncooperative, the schedule could get pushed back a week.*

- **A 21-day closure** of the northbound I-41 to westbound North Avenue exit ramp will begin the week of July 6.

Travelers on I-41 who want to use North Avenue have alternate routes including the Watertown Plank Road exit, Mayfair Road exit, or Burleigh Street exit.

Thanks in advance for your patience as we complete these vital projects.

**All work is weather dependent and subject to change.**
