

### WATERTOWN PLANK ROAD INTERCHANGE U-RAMPS

The new Watertown Plank Road interchange at I-41 will be a free-flow interchange. A free-flow interchange is an interchange in which all roads are built at separate grades eliminating the need for traffic signals at ramps. In this particular interchange, there will be two U-Ramps providing for free flow movements to I-41 Northbound and Southbound. These U-Ramps will allow traffic desiring to enter I-41 to travel over both northbound and southbound I-41 before entering I-41. Eastbound traffic on Watertown Plank Road can enter one U-Ramp and then access either I-41 Southbound, or continue over I-41 to enter I-41 Northbound. Westbound traffic on Watertown Plank Road can enter the other U-Ramp and then access either I-41 Northbound or continue over I-41 to enter I-41 Southbound.
