

WIS 100 BRIDGE TRAFFIC SWITCH

Work began in early April on the rehabilitation of the WIS 100 bridge over the Hank Aaron State Trail. A traffic switch is scheduled to occur overnight Friday, May 4. As a result of this switch, all lanes of traffic will be placed on the northbound lanes of WIS 100 for approximately two months.

The I-94 East exit right turn to WIS 100 south will remain closed. Motorists may exit I-94 East at Moorland Road and take Moorland Road south to Greenfield Avenue to WIS 100 to get around this closure.

Further updates will be provided to detail additional stage changes taking place throughout this project. The bridge rehabilitation is scheduled to be complete in late August.

WHAT TO EXPECT DURING CONSTRUCTION

Some construction activities are likely to create noise and/or dust during the course of the project. Be assured that we always work hard to minimize the impact of these events, but, if you have a concern, please do not hesitate to contact us.

****All work is weather dependent and subject to change.***
