WIS 20 between Sterling Circle and County L

- Reconstructing WIS 20 (North Street) westbound lanes from Stage 1 to just east of County L. WIS 20 will remain open and utilize the newly reconstructed WIS 20 eastbound lanes.
- I-43 southbound exit and I-43 northbound entrance ramps will be closed and WIS 20 access will be detoured.
- I-43 southbound entrance and I-43 northbound exit ramps will re-open.
- WIS 20/County ES North Leg will have a 21-day closure similar to the south leg (tentatively scheduled for late July). A closure specific update will be sent out when the schedule becomes clearer.
- WIS 20/County L North Leg will have a 14-day closure as well. We are working on options to try and maintain this access as long as possible.

WIS 20 between County L and WIS 83

- WIS 20 will be open to local traffic only but fully closed to traffic near the Walworth/Racine County Line and Canadian National Railroad crossing.
- WIS 20 can be used to access local businesses and residences but traveling directly from East Troy to Waterford will not be possible due to the full closures listed above.

Please note that all work is weather dependent and subject to change.
