

US 12 Bypass

US 12 Bypass South Section to be discussed at January 13 Public Information Meeting

You are invited to a public information meeting on Wednesday, January 13, 2010, in the basement of the West Square Building, 505 Broadway Street, Room B-24/30, Baraboo, WI. The primary focus of the meeting will be to provide an update on the preliminary design progress for the south section of US 12 Bypass between Terrytown Road and Ski Hi Road. The north section (IH 94 to Terrytown Road) of the project currently under construction will NOT be discussed at this meeting.

At past meetings, WisDOT was asked to reconsider the cul-de-sac decision at Hatchery Road (original design as determined during the environmental process). WisDOT and KL Engineering have been reviewing costs, traffic volumes, environmental and real estate impacts of the cul-de-sac versus through roadway option at Hatchery Road. The study results confirmed that the cul-de-sac of Hatchery Road is the best alternative based on the balance of impacts and costs. At this meeting, WisDOT and KL Engineering will present the results of those studies and the reasons for staying with the original cul-de-sac decision.

Attendees will have the opportunity to make written or verbal comments during the meeting. The meeting will be conducted in an open house format from 6:00 p.m. - 8:00 p.m., with a formal presentation beginning at 6:30 p.m.

WisDOT Southwest Region
La Crosse Office

Persons who are unable to attend on January 13th can contribute comments about the US 12 Bypass by contacting WisDOT Project Manager Anne Wallace by January 27th at:

Anne Wallace, P.E.
