

US 18/151 PROJECT (COUNTY G TO WIS 69)

Project FAQ

Why is this project necessary?

The purpose of the project is to address emerging traffic growth and operational deficiencies by adding auxiliary lanes between County G and WIS 69 along with interchange and safety improvements.

Will there be lane closures or detours?

Yes, lane closures, ramp closures, and traffic shifts will occur throughout the project along US 18/151.

The County G interchange is scheduled to be fully closed while crews work to widen the bridge and reconstruct the roadway with added turn lanes and traffic signals at the ramp terminals.

The Military Ridge Trail under US 18/151 is scheduled to be closed while crews work to extend the box culvert.

WisDOT will provide advance notice of closures and detour routes.

How will this affect my daily commute?

Drivers may experience delays due to lane restrictions and reduced speeds in work zones. WisDOT encourages travelers to plan ahead and use alternative routes when necessary.

Will the project affect businesses along US 18/151?

WisDOT is working to minimize the impact on local businesses. Access will be maintained, and detour routes will be provided when needed.

Will emergency vehicles and local access be maintained?

Yes, emergency vehicle access will be maintained throughout construction. Local access to homes and businesses will also be maintained.

How can I stay informed about project updates?

You can stay updated through:

- The official project website: 511 Wisconsin US 18/151 Project
- Project updates will be communicated via email. If you'd like to be added to the email distribution list, please contact Rachel Andreoli at randreoli@hntb.com.
- For questions of concerns, please contact Barry Larson, WisDOT Project Engineer at blarson@hntb.com; or (608) 209-1626.

US 18/151 PROJECT (COUNTY G TO WIS 69)

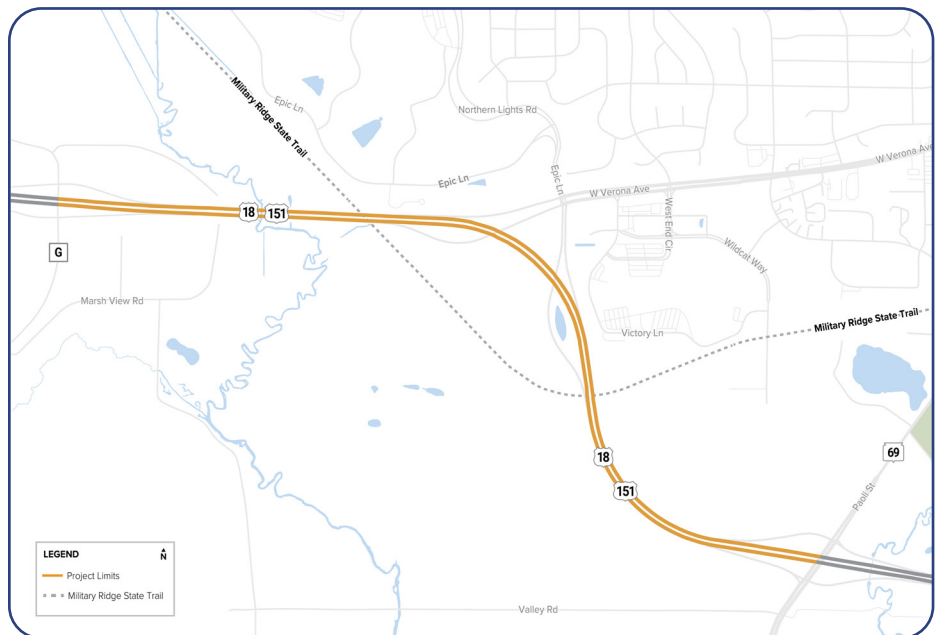

Project Overview

The Wisconsin Department of Transportation (WisDOT) is scheduled to begin construction along US 18/151 between County G and WIS 69 to address emerging traffic growth and operational deficiencies. Auxiliary lanes will be added, along with interchange and safety improvements. Construction is scheduled to begin in March and complete in late 2025.

PROJECT OVERVIEW

- ~ County G interchange improvements including bridge widening, signalization of the ramp terminal intersections and adding left turn lanes.
- ~ Eastbound and westbound auxiliary lanes will be added to US 18/151 between the County G and Verona Ave interchanges. To accommodate the auxiliary lanes, the bridges over the Sugar River will be widened and the Military Ridge Trail culvert will be extended both north and south.
- ~ The bridge carrying the eastbound on-ramp from Verona Ave to US 18/151 will be widened to accommodate a second lane.
- ~ An eastbound auxiliary lane will be added to US 18/151 between the West Verona Avenue and the WIS 69 interchanges.

The project team thanks you for your patience and cooperation throughout this project!
