## WIS 57 multi-year bridge construction project resumes in Door County

*Full closure of WIS 57 at Logan Creek starts May 5, 2025*

(Jacksonport) The Wisconsin Department of Transportation (WisDOT) Northeast Region announces the WIS 57 bridge improvement project in Door County will resume on May 5, 2025. Crews will replace the WIS 57 structure at Logan Creek starting May 5, 2025. Replacement of the Hibbard Creek structure begins in September 2025. There will be a hard closure (no vehicles may cross) at the structures during construction.

The project began in 2024 with the completion of two structure replacements at Lily Bay Creek and Geisel Creek in the town of Sevastopol.

Pheifer Brothers Construction Co., Inc. of Neenah, Wis., is the Prime Contractor.

### WIS 57 at Logan Creek (Jacksonport):

- **Construction:** May 5, 2025 to July 2025
  - The existing culvert pipes at Logan Creek will be replaced with a new at-grade slab span bridge.
- **Traffic Impacts:** WIS 57 will be **CLOSED AND DETOURED** during the replacement of the drainage structure.
  - No vehicles will be allowed to cross the structures during construction.
  - There will be no access across the streams.
  - Local, business, and emergency access will be maintained at all times.
- **Detour:** WIS 57 detour will follow County T and County V during construction.

### WIS 57 at Hibbard Creek (Jacksonport):

- **Construction:** September 2025 to November 2025
  - The existing culvert pipes at Hibbard Creek will be replaced with a new at-grade slab span bridge.
- **Traffic Impacts:** WIS 57 will be **CLOSED AND DETOURED** during the replacement of the drainage structure.
  - No vehicles will be allowed to cross the structures during construction.
  - There will be no access across the streams.
  - Local, business, and emergency access will be maintained at all times.
- **Detour:** WIS 57 detour will follow County V, County A, and County E during construction.

### **Project benefits**

Replacement of the existing deteriorated culverts with new drainage structures will reduce the regular maintenance and intermittent traffic disruptions at these locations. The new drainage structures will also improve drainage under the highway at these locations, reducing saturation and improving longevity of the road core. Flattening of roadside slopes and removal of guardrail at the Lily Bay Creek crossing and upgrades to guardrail to current standards at the other three crossings will improve safety.

### **Previously Completed Work (2024)**

- **WIS 57 at Lily Bay Creek and WIS 57 at Geisel Creek (Sevastopol):**
  - The existing box culvert at Lily Bay Creek was replaced with a new concrete box culvert.
  - The existing box culvert at Geisel Creek was replaced with a new box girder bridge.

### **More information**

Stay informed on the latest construction updates by visiting our dedicated project websites and following us on Twitter.

- WIS 57 511 Wisconsin Construction Website: <https://projects.511wi.gov/wis57sheb/full-project-overview/>

- During construction, this project's construction operations will be featured weekly on the Northeast Region Weekly Highway Construction Update:

### **Work Zone Safety**

Each year in Wisconsin, both highway workers and motorists are killed and injured in crashes that happen in highway construction zones. Motorists should slow down, be patient, and pay attention to their surroundings in this and all work zones.

For more information regarding work zone rules for motorists, the law restricting hand-held devices, and general work zone safety information, please see our work zone safety website at <https://wisconsindot.gov/Pages/safety/education/workzone/>.
